

AMAN HAJILAL MUJAWAR

Data Analyst | SQL • Python • Power BI • Excel

Miraj, Maharashtra, India | +91 8530489359 | mujawara8530@gmail.com | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Aspiring Data Analyst with a Computer Engineering background and hands-on project experience in SQL, Python, and Power BI. Skilled in data cleaning, exploratory data analysis, dashboard design, and translating raw datasets into actionable business insights. Completed a 6-month Data Analytics training program and built a portfolio of 4 end-to-end analytics projects. Seeking a full-time Data Analyst role.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Python Libraries: Pandas, NumPy, Matplotlib

Data Visualization: Power BI, Microsoft Excel (Pivot Tables, VLOOKUP, Dashboards)

Databases: MySQL, MySQL Workbench

Tools & Platforms: Git, GitHub, VS Code

Core Competencies: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development, KPI Reporting

Currently Learning: Generative AI (GenAI), Machine Learning

PROJECTS

Marketing Campaign Performance Analysis | Python, Pandas, NumPy, Matplotlib — [GitHub Repo](#)

- Analyzed a 2,500-record marketing dataset using Pandas and NumPy to evaluate campaign performance, ROI, and customer response.
- Engineered features (Cost per Purchase, Revenue per Purchase, ROI %, Age Group, Income Group) to deepen the analysis.
- Built Matplotlib visualizations and delivered insights identifying the highest-revenue and most cost-efficient campaigns.

CRM Sales Analytics | MySQL, SQL, MySQL Workbench — [GitHub Repo](#)

- Designed a relational CRM database (Customers, Products, Sales) with primary/foreign keys to analyze customer and sales performance.
- Wrote advanced SQL using CTEs, window functions (RANK, LAG), and multi-table joins to identify high-value customers and top products.
- Validated and cleaned data (duplicates, NULLs, invalid statuses) and analyzed month-over-month sales trends.

HR Analytics | MySQL, SQL, Excel — [GitHub Repo](#)

- Built and queried a multi-table HR database (Employees, Department, Performance, Attendance, Salary History) across 30+ SQL business questions.
- Used window functions (RANK, LAG) to rank employee salaries by department and track salary progression over time.
- Analyzed attrition rate, attendance, overtime, and performance trends using GROUP BY, CASE, and conditional aggregation.

Bank Loan and NPA Performance Dashboard | Power BI, Excel, DAX — [GitHub Repo](#)

- Cleaned and modeled a raw banking dataset (Customers, Loan Accounts, Payments, Branches) into an interactive Power BI dashboard.
- Built DAX measures (Total Loans, Total Disbursed, Active/Closed Loans, Avg Interest Rate, NPA %) to track loan portfolio health.
- Designed KPI cards and trend/bar/pie/donut charts with slicers for branch-level and EMI-status drill-down analysis.

CERTIFICATIONS & TRAINING

- Data Analytics Training — ITINFO ACADEMY (6 Months): Covered SQL, Python for Data Analytics, Power BI, and Excel for real-world data analysis projects.

EDUCATION

B.Tech in Computer Engineering Expected 2026

Vishveshwarya Technical Campus, Patgaon (Dr. Babasaheb Ambedkar Technological University) — CGPA: 7.87

Diploma in Computer Engineering 2022

Government Polytechnic College, Miraj (MSBTE) — 79.89%

SOFT SKILLS

Communication • Problem Solving • Analytical Thinking • Teamwork • Time Management

LANGUAGES

English • Hindi • Marathi
